

Ports required for Horizon VDI

Before you're able to connect to UKSeRP via VMware Horizon you may need to ask your organisations IT team to allow the connection.

The outbound ports required are:

- 80 TCP (http)
- 443 TCP (https)
- 4172 TCP & UDP
- 8443 TCP & UDP

The Horizon client will need to be able connect to:

- connect.ukserp.ac.uk
- 137.44.141.43
